

## Covid-19 Guidelines

Updated June 2021

Salami Studios is following the County of Los Angeles Department of Health as well as SAG-AFTRA protocols. We are a SAG-AFTRA and Apple approved facility. We are working alongside our commercial cleaning service, striving to maintain a clean and safe environment at all times.

### **For in-studio recording, please note these guidelines:**

- Performers will be given specific booth entry instructions over the gate intercom upon arrival.
- Talent records are one mic per booth.
- Performers can enter the booths of studios A, C and D, safely, with no physical contact.
- On-site participants will be limited to essential personnel only; all other participants must join sessions remotely via phone patch or video conference.
- Stagger call times to allow for 30 minutes of cleaning time/air filtration between actors.
- We are encouraging actors to bring (and leave with) their own scripts. If that is not a possibility, we can provide print-outs upon request.
- Maintain the prescribed six foot distance, to the extent possible and practical.
- Limit movement around the premises to recording rooms and restrooms, there will be no congregating in the lobby or any common areas during this time.
- Guardians may sit quietly in the booth with minors or outside in the parking lot. Studio teachers may use video conferencing to monitor the session remotely or from our conference room upstairs.

### **Mandatory:**

- If you show signs of respiratory illness, such as cough, sore throat or fever, you will not be allowed to enter the premises. Persons under quarantine or isolation orders may not enter the premises.
- Masks/face coverings are required to be worn at all times, unless recording.
- Essential personnel only, in the building and for sessions.
- Wash hands/use hand sanitizer frequently.

### **Please note:**

- We have a temperature taker on site.
- There is a certified Covid-19 Compliance Officer on site.
- Masks can be provided for anybody who does not have one with them.
- Hand sanitizer, hand soap, and warm water are available throughout the premises.
- Each studio has its own HVAC system installed with HEPA filtration.
- Pop filters, headphones, and music stands are sanitized and changed between actors.
- For now, food service is discontinued.
- Eating in the studios is not permitted.
- We recommend bringing your own beverages, but bottled water is available upon request.
- We are limiting the studio's exposure to those who have specific sessions or business on the premises.
